

Practice Groups – Guardianship and Estate Administration

The Guardianship and Estate Administration Group maintains a successful and respected practice in the area of estate administration, trust administration, and guardianships, including but not limited to, appointments, administration, and litigation involving contested matters in the Probate Courts throughout the State of Ohio. Our experience includes the handling of complex trust and/or estate administration to minor estates including release from administration. Our approach also includes minimizing estate taxes associated with a life time and/or testamentary transfers of wealth.

With respect to guardianships, we represent applicants to serve as guardians, prospective wards in situations where guardianship is questionable, and family members who have an interest in the guardianship. Further, the administration of the guardianship estate, including assistance with investments and the payment of bills and living expenses for the ward, are handled in a professional manner. We find that family counseling and life/death assistance is typically part of the experience we provide throughout the guardianship.

The lawyers in the estate administration and guardianship group are frequent lecturers and participants at professional seminars given by National, State, and Local Bar Associations in Ohio and elsewhere in the Midwest. We are able to offer our services based upon many different fee arrangements as well as the traditional hourly rate fee structure.

We pride ourselves in providing efficient representation to our clients. Further, we value open communication whether by phone, email, facsimile, or otherwise in order for the client to have constant knowledge of the status of their file at any given time. At times, for the convenience of our clients, we are generally willing to meet at their home in the evening or a weekend.
