Our Midwest Roots Run Deep

One Firm. Many Talents.

Our attorneys vigorously defend civil cases at jury trials, arbitrations, mediations and other administrative and alternative dispute resolution processes. We represent clients in complex and catastrophic matters throughout the United States.

With such a rich legacy as tough-as-nails litigators, you might not realize that Reminger is as effective in the boardroom as we are in the courtroom. Our transactional professionals possess extensive experience and savvy insight regarding the correlation between corporate law, commercial law, real estate law and tax law.

Reminger is also home to a robust and dedicated estate planning and probate litigation group. From simple probate administration issues to complex disputes over the administration of trusts, we have a team specifically devoted to these types of cases. Moreover, our estate planning attorneys diligently work to protect your hard earned assets while ensuring that your plans are executed appropriately.

Reminger services clients ranging from Fortune 500 companies to small businesses and individuals. No matter the legal issue you face, our attorneys will provide a thoughtful and practical solution that keeps your goals, budget and expectations at the forefront.

Results. Period.

Based in America's heartland yet delivering global reach, Reminger provides our clients with the best of both worlds: the knowledge and skill set of a larger firm, combined with the personal attention you would expect from a smaller firm. Since we first opened our doors at 75 Public Square in Cleveland in 1958, Reminger has grown from two individuals to a full-service firm employing several hundred attorneys, paralegals and staff. We have expanded into fifteen offices across Ohio, Kentucky, Indiana, and Pennsylvania.

Amidst all these changes, one guiding principle has steadfastly remained the same - a zealous commitment to our clients and a no-nonsense approach to legal counsel that is reflected in our firm's tagline: "Results. Period."
